Career Objective

React Native Developer with 3.5+ years of experience building scalable, high-performance cross-platform mobile applications for Android and iOS. Skilled in React Native CLI, Expo, and Expo migration, with strong expertise in integrating third-party SDKs, Firebase services, analytics tools, and payment gateways. Experienced in full-stack development using Node.js and Express.js with MongoDB. Proven ability to deliver production-ready apps, optimize performance, and implement robust architectures. Passionate about writing clean, maintainable code and continuously learning new technologies.

Technical Skills

Frameworks & Libraries: React Native CLI, Expo, Redux Toolkit, React Navigation, Firebase (Firestore, Crashlytics), Socket.io, Reanimated 2, Lottie, Tailwind CSS

Languages: JavaScript, TypeScript, HTML/CSS, Java, Kotlin

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Firebase Firestore, Realtime DB

Analytics & Monitoring: Mixpanel, Firebase Analytics, Google Analytics, Google Ads Integration

DevOps & Tools: Git, GitHub, Bitbucket Pipelines, Jira, Postman, Figma, Android Studio, Xcode

Testing: Unit Testing, Debugging, Performance Optimization

Soft Skills: Communication, Teamwork, Critical Thinking, Self-Starter, Adaptability

Education

Jiwaji University, Madhya Pradesh

Mar 2020 – Mar 2023

Bachelor of Science in Computer Science

Madhya Pradesh Board of Secondary Education

Mar 2018 – Mar 2019

12th Grade

Experience

Primotech Pvt Ltd.

June 2025 – Present

Software Engineer

- Working on a large-scale medical application with 1M+ downloads across Android and iOS, focused on performance, scalability, and user engagement.
- Led Expo SDK migration to enable advanced native integrations; built and maintained CI/CD pipelines for automated builds and OTA updates.
- Set up Firebase Crashlytics, Analytics, and Mixpanel for real-time performance monitoring and user behavior tracking.
- Collaborated with cross-functional teams across mobile and web platforms to deliver scalable, user-centric healthcare solutions.

Qurilo Solution Pvt Ltd.

March 2024 – May 2025

React Native Developer

Nawada, Delhi

- Enhanced app functionality using third-party libraries, improving performance and user experience on both Android and iOS.
- Implemented error handling and optimized code for smoother app performance.
- Designed user-friendly interfaces and managed API integrations for high-quality applications.
- Collaborated closely with clients to gather feedback, understand requirements, and deliver features aligned with business goals.

Numeric Infosystem Pvt Ltd.

October 2022 – February 2024

React Native Developer

Gwalior, Madhya Pradesh

- Built and maintained cross-platform apps with a focus on performance and user experience.
- Integrated RESTful APIs with backend teams for reliable data communication.
- Worked on web applications to broaden understanding of frontend and backend development workflows.
- Improved app performance with best coding practices, reducing load times and memory usage.

Projects

Medical Community App | *React Native, Firebase, Mixpanel, Expo*

- Large-scale medical application with 1M+ downloads, available on both Play Store and App Store.
- Implemented Firebase Crashlytics, Analytics, and Mixpanel for performance monitoring and user behavior tracking.
- Developed features: medical case sharing, communities, groups, specialties, trending feeds, quizzes, and draft-based posting.
- Integrated push notifications, OTA updates, force app updates, Google Ads, and Brand Notify interstitial ads.

HRMS App | *React Native, TypeScript, Firebase*

Play Store | App Store

- Built an HRMS app with Admin and Employee features including attendance, leave management, and reporting.
- Implemented push notifications, selfie-based punch-in/out, and location tracking using Firebase.
- Deployed application on Play Store and App Store.

GKEsports | *React Native, Payment Integration*

- Developed an esports platform for joining tournaments and winning real money.
- Integrated Cashfree payment gateway and real-time gameplay flow.

Ecommerce Apps (Fritha & GwaliorBasket) | *React Native, Next.js, Redux Toolkit, GraphQL, Razorpay*

- Built two ecommerce apps (Fritha and GwaliorBasket) with product browsing, cart, checkout, and order management features.
- Developed an admin panel in Next.js for managing products, orders, and inventory; used GraphQL for efficient data fetching.
- Integrated Razorpay for payments and Redux Toolkit for state management across both apps.

BetNinja | *React Native, Socket.io, Razorpay*

- Built a real-time betting app with multiple game durations and a wallet system.
- Integrated Razorpay for deposits and withdrawals; used Socket.io for live updates and interactions.

Bike Servicing App | *React Native, Node.js, Razorpay*

- Built a bike servicing app for booking repairs, battery replacement, inspections, and insurance; published on Play Store and App Store.
- Implemented OTP-based service start/completion and Razorpay payments for secure, verified transactions.
- Admin panel for assigning bookings to mechanics with real-time tracking for both users and mechanics.
